PROPEL-CABLED-MODULES

Pre-terminated Propel™ Cabled Modules available in all module sizes and fiber counts up to 288 fibers

- Pre-cabled modules on End A reduces signal loss
- Pre-cabled modules can be installed from rear of panel
- Serialized QR code on each end provides easy access to factor optical test results

Propel Cabled Modules provide a pre-terminated solution for simplified and efficient installation. They are available in all of the Propel module sizes on End A and End B can be another Propel module, MPO or stub.

Cable fiber counts range from 8 fibers – 288 fibers and cable lengths from 1 meter – 400 meters. Short cable lengths within rack can use patch cord cable for easy routing within the rack and longer lengths use ruggedized trunk cable.
